

TRU TRAK

Self Install

FMT100 Commercial Tracker

## INSTALLING HARD WIRED GPS TRACKERS

Your Self-Install GPS Tracker has arrived! This revolutionary little device is designed for simple fitting by anyone with minimal technical capability. It simply needs attaching to any 12V permanent live with the RED terminal. The BLACK terminal needs to go to ground. For ease of installation we recommend simply attaching it to the terminals of your battery. When locating the device with the adhesive provided please ensure it has the minimum amount of material between the device and the sky

LOCATE THE BATTERY

CONNECT THE TERMINALS

PEEL BACK THE ADHESIVE PAD

SECURE IN A SUITABLE LOCATION

Once installed take a short 5 minute drive then call 01473 794420 and we will ensure it is operating correctly and associate your registration.
